

# Extrusion-Injection Blow Molding Machines manufactured by General Plastics Europe.

General Plastics is your leading expert in plastic processing machinery for production of high quality bottles and each kind of containers at very competitive prices. This enables our energy-saving patented drives, which provide high-speed production and great precision. We design and manufacture Extrusion-Injection Blow Molding Machines for all possible applications. With the volume of few ml to 200 litres. **More info at: [www.generalplastics.at](http://www.generalplastics.at)**

**TECHNICAL DATA: FULLY ELECTRICAL, MECH.-PNEUMATIC OR HYDRAULIC BLOW MOULDING MACHINES for PE, PP, PCV, PET-G; Single and ts-two station; S-single head;D-double head;T-triple head;Q-quarduple head**

Lp.	MODEL Parameter	Unit	GB-30S -30D ; -30T -30Q -ts	GB-35S -35D -35T -35Q -ts	GB-40S -40D -40T -40Q -ts	GB-45S -45D -45T -45Q -ts	GB-55S -55D -55T -55Q -ts	GB-65S -65D -65T -65Q -ts	GB-75S -75D -75T -75Q -ts	GB-90S
1.	No. of heads / platens		1-2-3-4	1-2-3-4	1-2-3-4	1-2-3-4	1-2-3-4	1-2-3-4	1-2-3-4	1-2
2.	Product capacity	MI	5-250	10-350	20-500	50-1000	100-2500	200-5000	500-10000	5000-20000
3.	Screw diameter	Mm	Ø 30	Ø 35	Ø 40	Ø 45	Ø 55	Ø 65	Ø 75	Ø 90
4.	Extruder motor power	kW	5,5	7,5	7,5	11	11	15	22	36
5.	Output PE(max)	kg/h	11	16	22	30	40	60	90	120
6.	Mould platen dimation	Mm	170 x 170	220 x 220	220 x 220	220 x 280	280 x 340	340 x 340	340 x 550	550 x 550
